Oxfordshire, England.

Carlow College Masters in Therapeutic Child Care presents

Responding Therapeutically and Effectively to Aggressive Behaviour in Care Settings

A significant number of Social Care Workers and Foster Carers experience verbal and physical aggression and serious physical assault from the people they have chosen to care for and work with. This conference will propose a way of understanding and working with clients' aggressive behaviours and possibly preventing them.

**A One Day Conference to be held on
Monday, March 6th 2017
at
Carlow College, St Patrick's,
Carlow.**
